

The *8* Series

BERNINA *820*

The mark of the ultimate sewing experience.

BERNINA⁺

The *S* Series

BERNINA *820*

The world's only luxury, high-performance sewing system.

The most space, speed, precision...
for your original works of art.

Now this is an original. The BERNINA 820. Compared to other brands of sewing machines, it offers the fastest speeds, the most space, most thoughtful ergonomics and the utmost in Swiss precision. Which is why the 820 earns the highest marks from quilters. Not to mention fashion designers, crafters and other fiber artists.

Born from the imaginative minds of Switzerland's leading engineers, the BERNINA 820 offers the kind of high-performance features that'll allow you to create more, create bigger and create longer than ever before. The experience of sewing on it is positively luxurious. A tool that will elevate the mood of a hard-at-work master to pure joy in seconds flat.

And every part of its inventive design came about from talking to artists like you. For four generations, BERNINA has been known for listening to sewers and developing machines to answer their needs and greatest desires. So here's one for you. Someone who truly appreciates originality.

MAKING A MARK IN THE QUILTING WORLD... AND BEYOND.

The space to make a statement.

No matter what type of sewing you do, the BERNINA 820 gives you the most space so you can be your most creative. The smooth steel of the extended arm spans 15 inches (304.8mm), with a full 12 inches to the right of the needle. The 12.8-inch (325mm) diagonal space and 5.12-inch (130mm) height endow the 820 with the highest degree of maneuverability of any home sewing machine. Even the presser-foot height adjustments make your thickest quilt layers seem diminutive. So bring on the quilts, the drapes and the grandest of ball gowns. It's time to make *your* creative mark in the world.

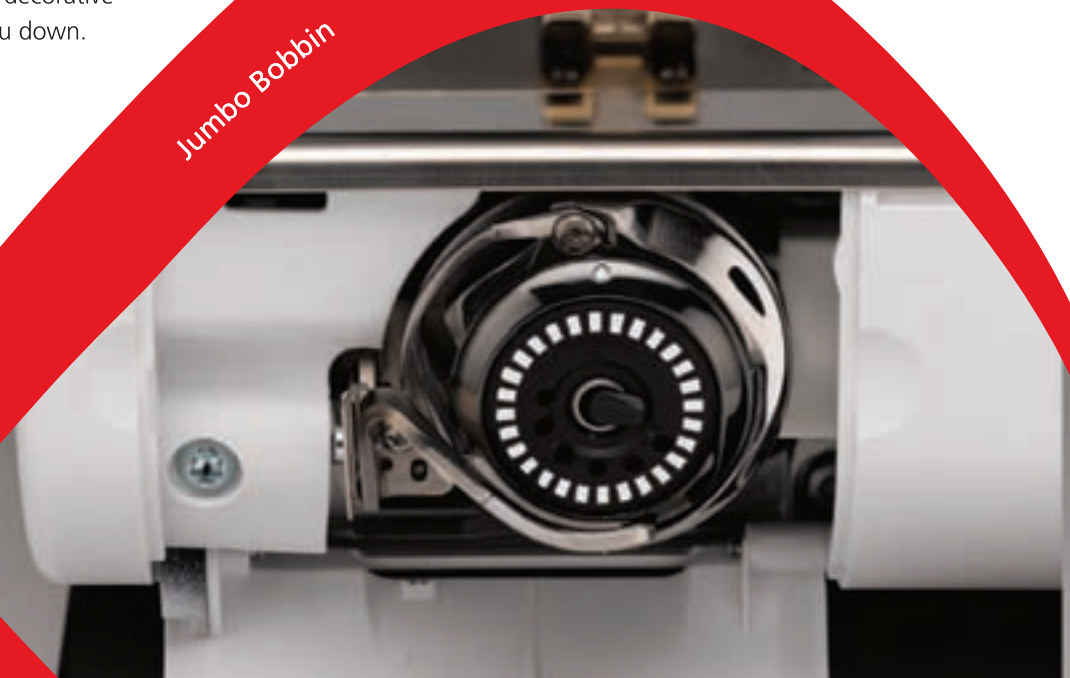

The fastest *and* the most precise.

What good is speed without an exacting stitch? With the BERNINA 820, you get the best of both worlds. At up to 1,100 stitches per minute, it's faster than any other brand of home sewing machine. But what really sets the 820 apart is that at top speed, it doesn't jump around or vibrate. It hums with quality. At top speed, even your widest decorative stitches remain flawless. There's no slowing you down.
On your mark, get set, go.

Get in the flow and immerse yourself.

Every feature on the 820 was designed to keep you in the flow of your creativity. For instance, the unique jumbo bobbin offers 40% more thread capacity and pops in and out with a simple touch of a finger. Also take note of the multi-spool holder, auto-presser foot lift, one-process auto-threading, and the brilliant TFT (thin film transistor) touchscreen with large, easy-to-read icons and intuitive navigation. Not to mention the digital alarm clock, just in case you need a reminder to eat dinner.

Jumbo Bobbin

8 HIGH-PERFORMANCE FEATURES ON THE BERNINA 820.

WELCOME TO THE ARTIST'S STUDIO.

Innovation comes standard.

A host of quality accessories comes standard on the BERNINA 820 sewing system, and once you use them, you'll wonder how you ever did without. For instance, the extra roomy slide-on table gives you ample space for your largest projects. And the innovative BERNINA Dual Feed makes it easy to sew on hard-to-manage fabrics. Plus, a collection of our all-metal presser feet gives you more choices than ever. A convenient accessory box holds your feet, jumbo bobbins and sewing tools.

The BERNINA Stitch Regulator.

One standard feature that inspires so many creative ideas is quite the revolution in the sewing world. It's called the BERNINA Stitch Regulator, a technologically advanced but simple-to-use presser foot that helps you to master free-motion sewing in no time at all. This BERNINA innovation regulates the length of your straight and zigzag stitches, making them even and consistent, so you can focus on creating your design. It's so fun, you'll be inspired to finish all of your quilts. And then embellish the curtains. And then on to your wardrobe.

BERNINA has all the options you need.

Optional 8 Series accessories can transform a simple room into a studio—one that would satisfy even a sewing prima donna. The custom-made BERNINA Cabinet, with optional 4-drawer caddy and full-length dropleaf, is specially designed to accommodate the size and power of the 820. The BERNINA Quilt Frame features twist-and-lock rails, making it simple to extend your frame from 60" to 120" (king size). The BERNINA Walking Foot provides even more control for outline, channel or grid quilting.

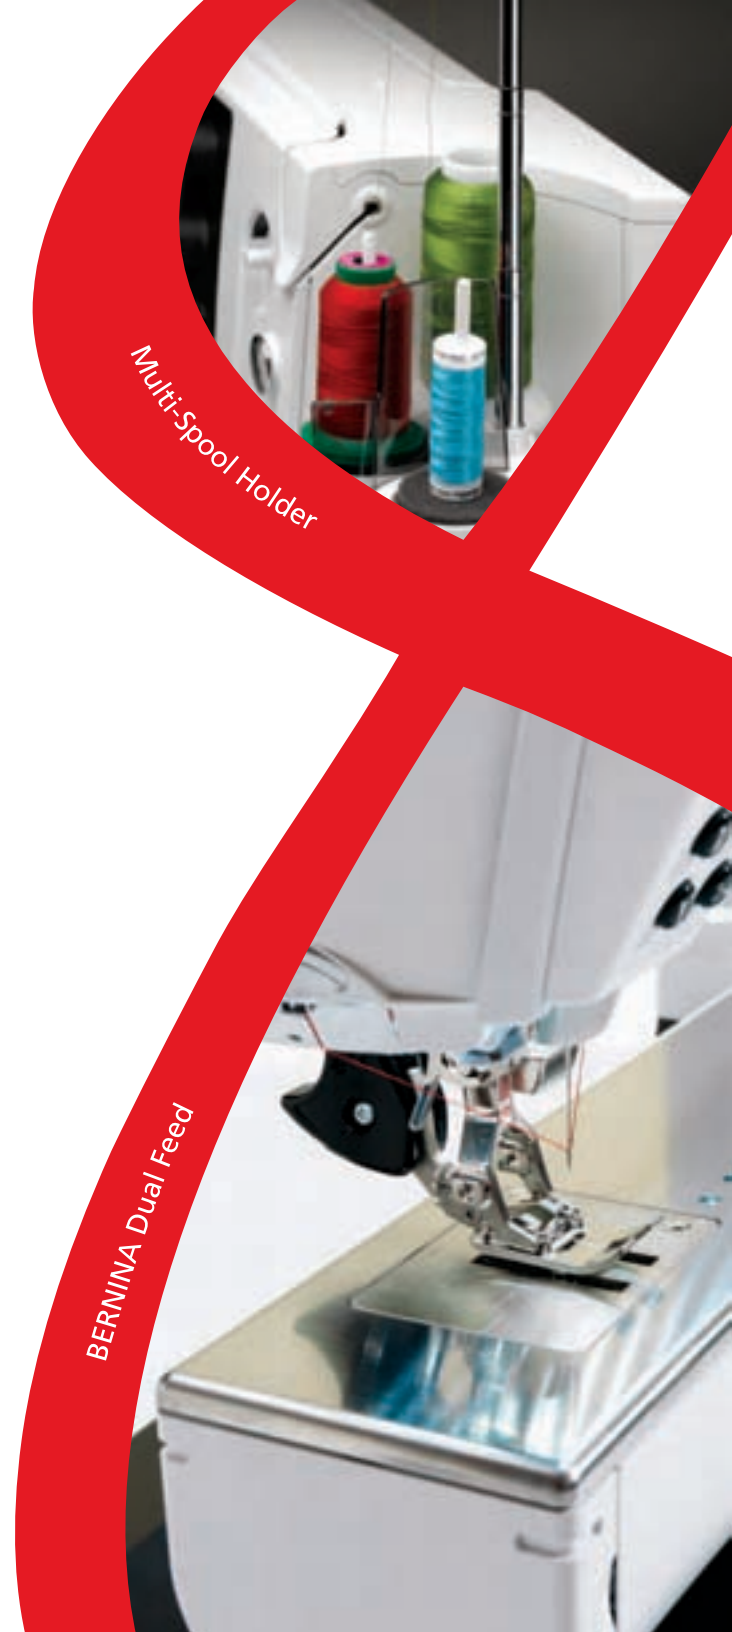

Visit your BERNINA Dealer today.

When you purchase any BERNINA machine, one thing always comes standard: impeccable service. That's because BERNINA Dealers around the world are renowned for their expertise, educational support and eagerness to lend a helping hand. Not to mention their passion for sewing. Visit them today to experience the 820. You always feel welcome when you walk in the door.

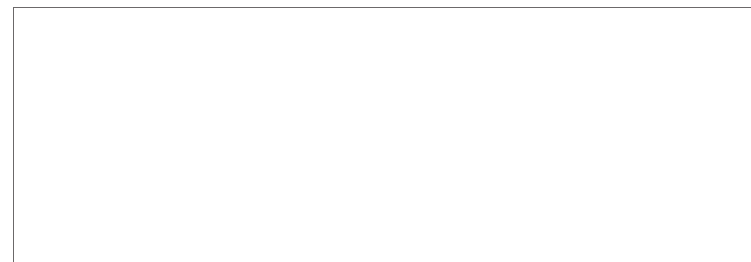

- 1 Most Space.** The 820 offers twice the space of a standard sewing machine and 50% more space than the largest top-of-the-line machines. A 15-inch extended arm with 12 full inches to the right of the needle, plus expanded height clearance lavish you with room to spread out, room to maneuver.
- 2 Fastest Speeds.** The BERNINA 820 boasts up to 1,100 sewing stitches per minute—the fastest of any brand of home sewing machine. But what's even more remarkable is that at top speed, the 820 doesn't vibrate; it hums with quality. At top speed, the 820 flawlessly sews your widest decorative stitches. At top speed, it penetrates your thickest quilts.
- 3 Jumbo Bobbin.** Because our exclusive jumbo bobbin provides 40% more thread capacity, you spend more time creating and less time prepping. Plus, this innovative bobbin is so easy to use. The hook swings out, the bobbin releases and pops out with a simple touch of a finger.
- 4 Total Stitch Control.** Exclusive features, such as the BERNINA Stitch Regulator, give you the ultimate in creative control. This revolutionary presser foot makes free-motion sewing easy and fun. Your stitches are beautifully consistent, whether you sew fast or slow. It's great for quilting or all-over fabric designs.
- 5 Centered Screen.** Only BERNINA features a centrally located touchscreen, so you can view both needle and screen with one quick glance. This brilliant screen presents high-definition graphics, vivid colors, and is ultra-responsive to your touch. All functions are on the main screen with large, easy-to-read icons for the simplest navigation.
- 6 BERNINA Dual Feed.** Working with tricot, velvet, ribbon, lots of layers? The innovative BERNINA Dual Feed is built in to the 820 to give you the most control when your fabrics are hard to manage. This innovative feed system offers the ultimate in visibility and maneuverability, too. Then, when you choose, it flips up and tucks away.
- 7 Automatic Threading.** It took Swiss engineers to create this efficient, one-process threading system. Just bring the thread up through the guide, let it fall into the slot on top, slide it along the left side of the machine, press a button, and your needle is automatically threaded—no matter what position it's in.
- 8 Thread Delivery System.** Our exclusive multi-spool holder keeps large, medium and small cones at the ready. The vertical holders and telescoping feature make for the smoothest thread release possible. In addition, the bobbin winder is located on the front of the machine for easy access, and it lets you select speed and amount of fill.
