Step 1: Basting

Straight Line or Starter Tool

- For the Q 24, baste along the edges and the top of quilt top to secure it, making sure it is parallel to leveling bar.
- For Q 20 and domestics, pin baste or spray baste the quilt top to the batting and backing.

Step 2: In-the-ditch Quilting

Straight Line or Starter Tool

- Stitch “in the ditch” at the top and between the first and second rows if you are on the Q 24.
- Quilt between all rows if you are on the Q 20 or a domestic machine.

7

Step 3: Piano Keys

Straight Line or Starter Tool

- Quilt up and down the piano keys, moving across the quilt and quilting on top of previous “in the ditch” stitching.
- *Hint: You can always travel along your “in-the-ditch” quilting lines to get from place to place on your quilt top.*

8

Step 4: Diamonds

Straight Line or Starter Tool

→ Starting at the green mark on either end of the quilt top, quilt from green mark to green mark across the top, forming a zig-zag row of stitching.

9

Step 4: Diamonds

Straight Line or Starter Tool

→ Quilt back across the quilt top connecting the blue marks, making sure to stop and quilt a diamond in the center.

10

Step 5: Triangle

Straight Line or Starter Tool

→ Starting at the aqua mark on either end of the quilt top, quilt from the upper aqua marks to the lower aqua marks across the top, forming large triangles.

11

Step 5: Triangle

Straight Line or Starter Tool

→ Quilt back across the quilt top connecting those same lower aqua marks with the aqua marks in the middle of the row to form the smaller triangles.
