

BERNINA Q 16 PLUS

BERNINA Q 16 PLUS LONGARM QUILTING MACHINE

BIG QUALITY. BIG VALUE.

made to create **BERNINA**

BERNINA Q 16 PLUS

The longarm quilting machine made for your space.

Are you still struggling to squeeze a large quilt through the small throat of your domestic machine while dreaming of your own longarm quilting machine on a frame? We have the perfect solution. Meet the BERNINA Q 16 PLUS. It's the longarm machine made for quilters who need more quilting space. It has more throat space than your domestic, a spacious 16 inches. Pair it with a 5 ft or 10 ft modular frame and the Q 16 PLUS meets and exceeds all your small space, big quilting needs.

BERNINA has developed domestic sewing machines for over 125 years. Our longarm machines, including the Q 16 PLUS, draw on both our wealth of experience and our commitment to innovation. We've worked hard to make sure the learning curve is a smooth and easy one for our customers so you can fully enjoy your creative process.

Nothing else matters more.

- BERNINA QUALITY AT A GREAT VALUE
- SPACIOUS 16" WORKSPACE
- BUILT-IN BERNINA STITCH REGULATOR FOR PERFECT STITCHES
- 5 ft OR 10 ft MODULAR FRAME
- TABLE, CABINET, OR FRAME OPTIONS AVAILABLE

“THE PERFECT MATCH FOR LONGARM LOVERS LIKE ME.”

AMANDA MURPHY, QUILT AND PATTERN DESIGNER

Amanda Murphy has a passion for designing and creating quilts on her BERNINA Q 16 PLUS. While her studio is small, the roomy quilting space of the Q 16 PLUS genuinely enhances her creative process. Like Amanda, you'll appreciate the fast 2,200 stitches per minute as well as the three modes of the BERNINA Stitch Regulator.

Unique user interface

Machine settings and functions are controlled using an intuitive touch screen navigation system with integrated tutorials and help functions.

Integrated bobbin winder

The on-board bobbin winder makes it simple to wind bobbin threads even while quilting.

Fully operated from front

Dual handwheels (front and back) for easy manual needle positioning.

Multi-functional, programmable, ergonomic handles

The 8-way, fully adjustable handles place the most frequently used functions at your fingertips (handles come with frame).

Needle Threader

The needle threader helps threading the needle with ease.

BERNINA Stitch Regulation

Master freehand quilting quickly with the assistance of the integrated BERNINA Stitch Regulator (BSR).

Speed

With high-speed precision stitching for freehand quilting, you complete more quilts faster than ever.

Simple oiling

One point only.

BERNINA Innovation

Designed and engineered in Switzerland.

LED lighting

Bright LED lights along the length of the machine and above the needle illuminate the quilt for enhanced visibility.

16 inches of throat space

The 16" platform offers generous quilting space and great comfort. The perfect choice for home or studio.

Quiet quilting

Quiet gear mesh design and internal motor. High-speed sealer bearings require no oil maintenance.

BERNINA Q 16 PLUS KEY FEATURES

All you need to know about smart quilting.

BERNINA STITCH REGULATOR

The Q 16 PLUS is equipped with the BERNINA Stitch Regulator which makes freehand quilting easier than ever. It keeps stitches even and consistent regardless of how slow or fast you quilt and no matter how complex your quilt design may be. The two sensors of the internal, integrated BERNINA Stitch Regulator – one on each side of the stitch hole in the needle plate – allow for very precise sensing of the fabric movement. This is the first system with no mechanical encoders; the sensors detect every fabric movement and regulate the sewing speed for consistent stitching between 1 and 24 stitches per inch.

The Stitch Regulator has three different modes: In the first mode the needle continues to move even if you stop. This is particularly useful when sewing corners. In the second mode the needle stops when you stop, so no knot is created on the under side, which is very useful when quilting with rulers. The third mode is a basting stitch, where you can choose between 1, 2 or 4 stitches per inch. The whole quilt can be basted without safety pins.

The BERNINA Stitch Regulator is simple to activate and customisable using the machine's touch screen. A manual mode with no stitch regulation is also available.

DIGITAL THREAD TENSION ADJUSTMENT

Easily adjust thread tension and track settings for your favorite thread types and combinations – no external tension assembly required.

NO TOOLS REQUIRED FOR FOOT INSTALLATION/REMOVAL

It's never been easier to be as creative as you want to be with BERNINA presser feet. These do not need a tool for installation and removal so it's easy and convenient to swap out feet to match the quilting technique you require.

NEEDLE THREADER

No more struggles threading the needle. Let your BERNINA Q 16 PLUS take care of that for you. Simple, easy, done!

DOMESTIC AND TWIN NEEDLE COMPATIBLE

No need for special needles that only work on one machine. Use the same needles you already use on your domestic sewing machine. Also, you can use a twin needle and the twin needle stitch plate to achieve beautiful ribbon-like effects or experiment with two colours or shades of thread to produce 3D effects.

USER INTERFACE

BERNINA brings the best of the domestic machine world to longarm machines with a simple-to-navigate colour touch screen. Totally customisable, it includes useful functions, such as five user profiles, a stitch counter and built-in tutorials that assist with threading the machine, oiling, winding the bobbin and other processes.

INTEGRATED BOBBIN WINDER

The built-in bobbin winder enables you to conveniently and quickly wind your bobbins while you quilt. One of the many details that make this BERNINA longarm machine unique.

THREADING PATH

The front-positioned spool holders and forward threading path are easy to reach and simple to follow.
