Improved Options

Quick Easy Editing Options
- The file, NA869 will continue to be used for this exercise.
- Hold the <Alt>- key and **right** click on one of the leaves.
- A list of pop-up options appears.
- This makes it easy to perform some basic functions in the software without opening menus or using short-cut keys.
- Select "Ungroup".

|		
	Object Properties...	
	Group	Ctrl+G
	Ungroup	Ctrl+U
	Cut	Ctrl+X
	Copy	Ctrl+C
	Paste	Ctrl+V
	Duplicate	Ctrl+D
	Duplicate with Offset	Ctrl+Shift+D
	Delete	Del
	Mirror	▶
	Rotate	▶
	Align and Space	▶
	Lock	K
	Unlock All	Shift+K
	Hide Selected	
	Hide Unselected	
	Unhide All	
	Zoom to Selected	Shift+0
	Copy Object Properties	
	Apply Object Properties	

Background Fabric Textures & Colors
- Go to "Design> Background". This menu has been expanded.
- Place a dot in front of "Factory Fabric".
- Click on the drop-down arrow and choose "Fleecy".
- Choose a color and press OK.

Hoops

- Right click on the "Show Hoop" icon.
- The hoop dialog box has been streamlined so users can now isolate the machine type and the foot. No more long lists to scroll through!
- Click "OK".

Note: E16 hoops are also included

Templates

- Click on "Show Hoop Template".
- Hoop templates are now included for each type of BERNINA hoop.
- Click on "Show Grid".
- If you choose the grid, the template turns off and vice versa.
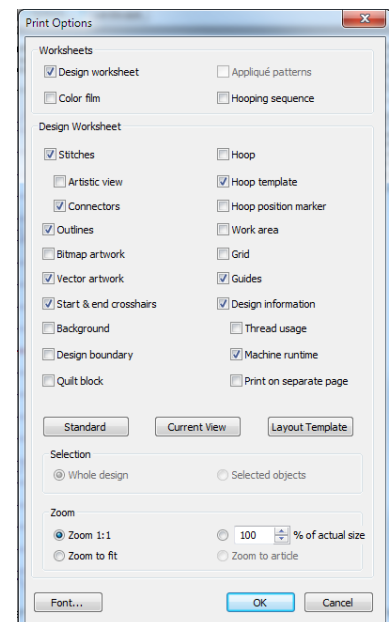

Print Preview

- Click on Print Preview.
- Click on "Options".
- There are many options to choose from so you can customize exactly what you wish to see on the printed template.
- Choose a few options and click "OK".
- Close Print Preview

Save the design

- Go to "File> Save as".
- Click on the arrow in File type to see the available file formats.
- Embroidery Designs can be saved as ART or EMB.
- Type in the file name and finish with "Save".

A distinction is made in Software 8 files between saving and exporting a file.
Save: design files (ART, EMB)
Export: machine files (exp, PES etc.)

made to create **BERNINA**
